

Sprint 18

Sprint 18 Retrospective:

Notes:

What went right:

- get alot work done this sprint: joseph, ghabe
- got full stack to work from the front-end to the backend: joseph
- get work done early so that I dont block anyone: david

What went wrong:

- unable to incorporate - middle of sprint introduced to security tokens: joseph
- didnt know what to do in the middle of the sprint, didnt know how to open ports: josh
- distribute time more evenly: frank
- didnt know what to do, probably could have took another research sprint: rhoy

Action plan:

- push over doing JWT to the next sprint: joseph
- continue with completeness trend: stay within the at least -5%: ghabe
