Team Work Capacity

Total number of team members: 6

Hours Per week	8	8	8	8	8	8

Total Team Capacity Per Week: 48 hours

Feasibility and Risk Mitigation Strategies

- Weekly sprint capacity is set to 40 hours per week which is less than the total team capacity of 48 hours. This allows for some members within the week to take less capacity for personal needs.
- Utification is planned to be finished by 4/23/2023 which gives the team 2 weeks of unassigned sprints ending at 5/7/2023.
- Based on Thanksgiving break, we will have a sprint during spring break but can become an unassigned sprint if wanted by the team.

Acceptable Levels of Risk

- We can be behind schedule on 2 app features and allow them to have a week extension.
- We can have at least 1 person gone per sprint below 40 hours capacity and still be able to finish on time if the team still follows a 40 hour sprint capacity.
