Sprint 15	02/13/23 - 02/19/23
Notes:	Name
What went right:	
action plan of having more research helped, time was used more efficiently:	ghabe
Got the base html/css structure for some Ui views	joseph
Got workdone and got to Account deletion functional work	frank
Wthat went wrong:	
not all of us able to put down hours on burndown chart:	frank
Emergency came up and couldn't get any work done	josh
should have done another task break down aside from the assigned task	frank
learning curve with JS and incorporating AJAX, taking up time:	joseph
Action plan:	
most of us are busy on Tues, hence for the upcoming sprints, consider Tuesdays to be a day off	frank
focus more on trying to get the completeness to be 0% by possibly getting better estimates on task break downwork item	ghabe
consider more research time into next sprintdavid to finish today	joseph
